

**6 Reasons Why Massachusetts Does Not
Need New Jails or Prisons
and
Should NOT Be Allowed to Build More:**

1. The war on drugs is waged more harshly against poor communities and communities of color who don't have the resources to fight back.
2. People struggling with addiction are not criminals.
3. The human rights of people in jail and prisons are being violated.
4. The state is wasting taxpayer dollars.
5. Majority public opinion is not in support of indefinite detentions of immigrant or "war on terror" detainees without due process.
6. If we build healthy communities, we will not need to build new jails or prisons.
